

October 30, 2003

To The Supreme Court Clerk of Michigan:

I am shocked to think that certain people of big businesses and manufacturing companies are letting this happen.

I'd like to reject any motion to pass the Proposal Court Rule No. 2003-47 petition, which is being drafted by the law firm of Dickerson Wright, leading attorneys and proposed to the Michigan Supreme Courts by the senior attorney and next President partner, Dennis Archer.

I am totally against any unjust petition that is being asked of the court. It is in disregard to the Constitutional State Rights of the people in Michigan who are connected with this deadly disease of asbestos. The people wish to seek and recover damages against the manufacturers and big business owners who allow asbestos to be used in the work place.

To deny these victims of their right to a jury trial would be the greatest of injustice.

Thank you,

**John N. Manchell,
Senior**
